HEDGE MAZE

Solution: The maze is set to change each time you do it. To complete it, you must explore the whole maze until you find the hidden spot that will trigger you to find the camera.

DIGITAL CAMERA

CAMERA FROM LOCATION

Solution:

- 1) Tulips
- 2) Marigolds
- 3) Roses
- 4) Peonies
- 5) Lilies

With the flowers listed above, the locations would work out like this:

1. Memorial Garden
 2. Rainbow Garden
 3. Rose Garden
 4. MacArthur Garden
 5. Either Richmond Garden, or Southern Flowers, or Green House as the last location. Since the first four locations show Rose was heading in a certain direction, it is clear that the Green House is the fifth and final location.

NICKNAMES - WHO IS WHO?

Alisha = Orchid

Read Alisha's interview. She mentions she has a nickname based on the type of flowers she kills, orchids.

Melinda = Marigold

Melinda mentions being the treasurer and based on context clues in the minutes; you can see that Marigold is the treasurer.

Emily = Poppy

Emily mentions being the secretary, and based on context clues in the minutes, you can see that Poppy is the secretary.

Heather = Iris

It is stated that Heather and Rose argue the most, and Heather tries to undermine Rose. In the minutes, it is clear that Iris is trying to do just that.

Amanda = Lily

Amanda and Lily have the same way of talking. So they are the same person.

Cassie = Daisy

That leaves Cassie as Daisy by process of elimination.

SUSPECT ELIMINATION

SPOILERS AHEAD

There are three suspects that can be eliminated during the first part of the mystery.

When you get access to the phone, you will find an email from Rose to a bank. The email reveals that Rose has been paying for Amanda's debt. This means Amanda has a motive to NOT kill Rose since she would lose that financial support.

Once you know who is who and have access to the phone, you will see that Daisy, who is Cassie, was somewhere else at the time of the murder. This is based on Daisy's text message.

Once you know the last location Rose was at before she died you can eliminate Alisha as a suspect since she is allergic to bees, and the area this happened at has bees all around it.

WHO ELSE HAVE YOU ELIMINATED?

UNLOCK

SPOILERS AHEAD

You should have completed all other puzzles at this point,

Solution:

From the shovel puzzle, you will find out that Melinda was with Zack at the time of the murder.

From the Corpse Flower Flyer puzzle, you will find out that Heather was in the Franklin Building during the time of the murder.

From the exotic flower flyer puzzle, you find out that Emily was the one stealing flowers, but you also find out she was somewhere else during the time of the murder.

So that means you have eliminated everyone else. Yes, that is right. You eliminated the remaining three suspects.

SOLUTION UNLOCK

The Gardener will give you a new piece of information that will shed light on something you thought you knew. This will bring one of the suspects back into play and thus make them your prime suspect.
