[SPOILERS HOW TO ELIMINATE SUSPECTS]

The messages you get from the four notes the killer sent Kacey will let you eliminate suspects.

“I don't understand what all the guys see in you.”

This statement eliminates the two male suspects since both have feelings for Kacey. We know this because Aurelina mentions LJ still having feelings. We know Johnny does because he tells us, and his statement is backed up by what Carly says.

“The only good taste you have is hating rom-coms.”

This statement eliminates Gina since she likes rom-coms.

“You are a liar.”

The statement eliminates Aurelina since her stated opinion of Kacey is that she is honest. This is backed up by what LJ says about Aurelina's opinion of Kacey.

“I always wondered what you would look like choking on your fries at Drakes.”

The statement eliminates Carly since she states she doesn't hang out with her coworkers after work. This makes her the only suspect who has not been to Mr. Drakes with Kacey.
