# COMPUTER

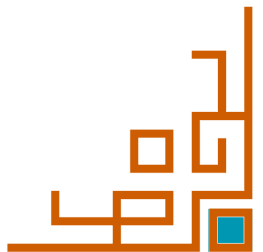

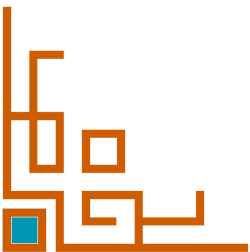

Password: tutankhamun

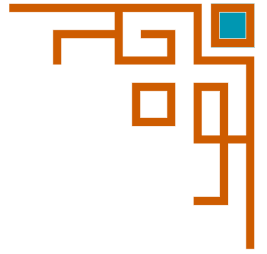

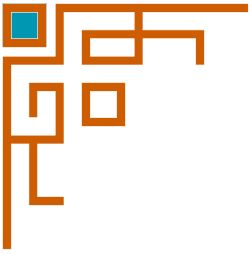

# DANIEL

Password: pastries

# SYLVIE/GIFTSHOP DISPLAY

Password:

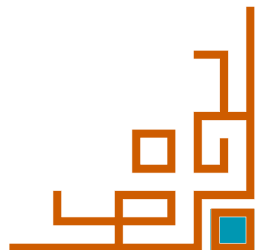

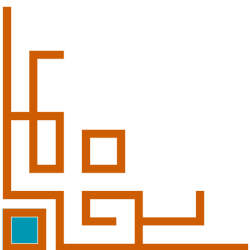

Cat - Bottom Shelf

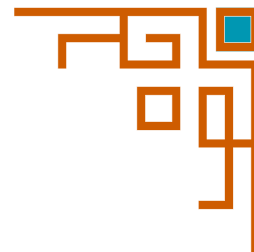

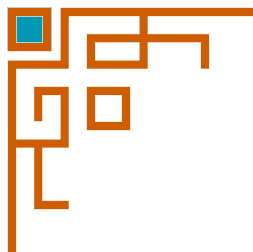

Ankh - Bottom Shelf

Pharaoh - Top Shelf

Pyramid- Middle Shelf

Box - Top Shelf

# LEROY/CLEANING MIX

Solution:

Floor Cleaner Mix

Chemical B - 3 parts **x3 = 9**

Chemical E - 5 parts **x3 = 15**

Chemical C - 2 parts **x3 = 6**

Stain Remover mix

Chemical A - 6 parts **x2 = 12**

Chemical C - 3 parts **x2 = 6**

Chemical D - 1 part **x2 = 2**

Chemical C is used in both so combined, it would be 12 parts, but Leroy is out of Chemical C so you would use 0 of it and substitute half as much of Chemical F as it is more concentrated.

Password:

Chemical A - 12

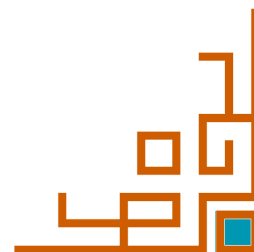

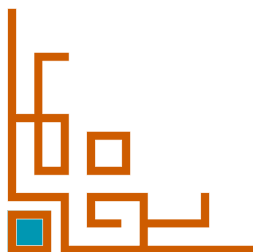

Chemical B - 9

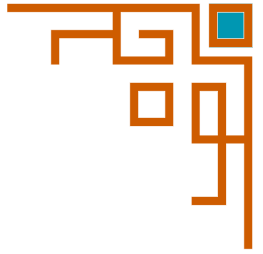

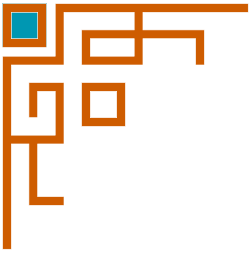

Chemical C - 0

Chemical D - 2

Chemical E - 15

Chemical F - 6

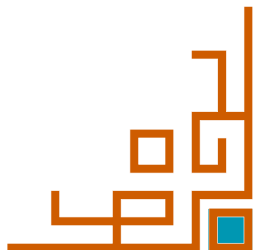

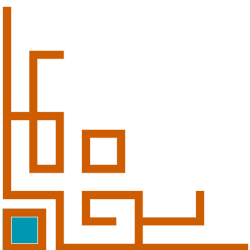

# SHAUN/CODED MESSAGE

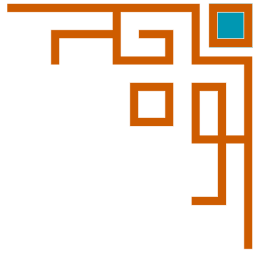

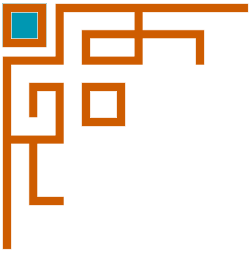

Solution:

“Tyrannosaurus Rex, Diplodocus, and Zuniceratops, oh my”

“Bring me this message, and I will give you that raise youve been asking for.”

Password: raise

# SCALES

Solution:

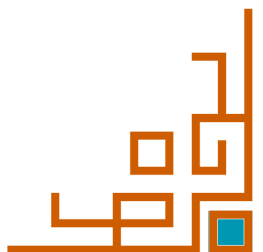

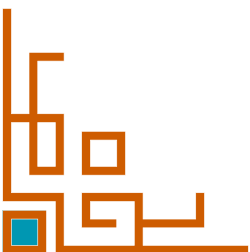

Password:

First Scale - Vase

Second Scale - Cat

Third Scale - Falcon

Fourth Scale - Vase

# PYRAMID

Solution:

Password:

First - Circle

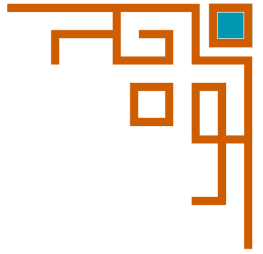

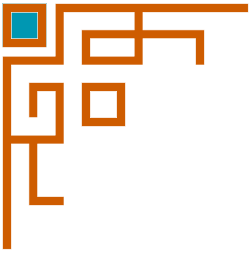

Second - Feather

Third - Bowl

Fourth - Bowl

# GRID

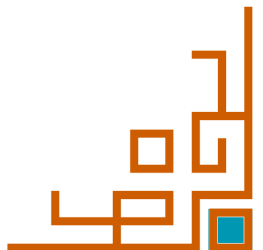

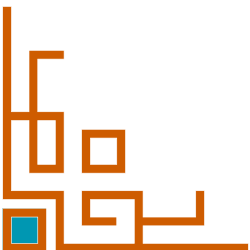

Solution:

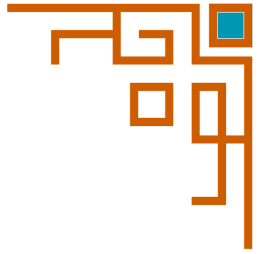

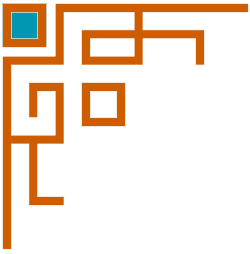

Password:

Blue - Crook&Flail

Red - Eye

Green - Ankh

# PATTERNS

Solution:

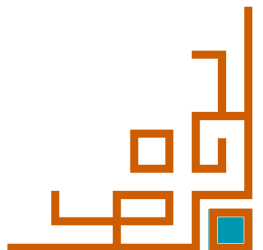

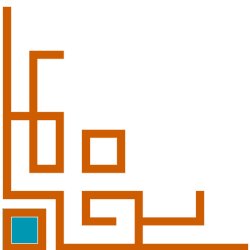

Password:

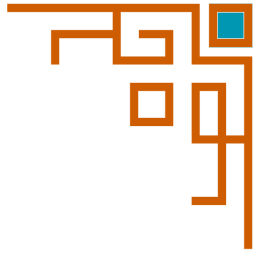

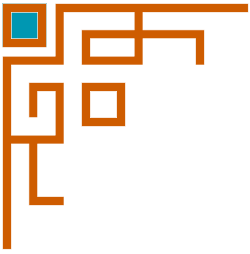

First Row - Water

Second Row - Scorpion

Thrid Row - Feather

Fourth Row - Axe

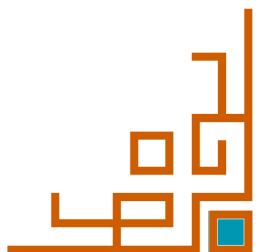

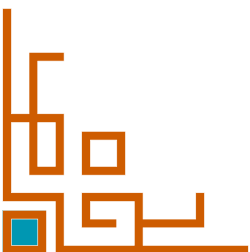

# PHONE

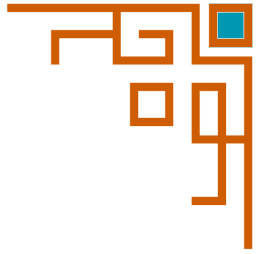

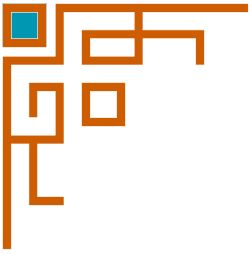

Which exhibit do you search for the statue?

Password: modernhistory

What is a key feature to look out for?

Password: mustache

# SUN NUMBERS

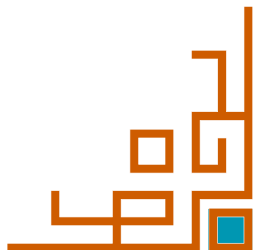

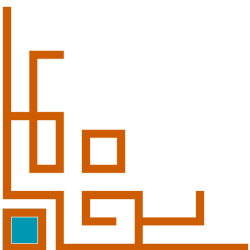

Solution:

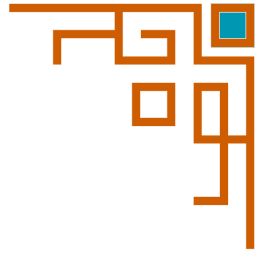

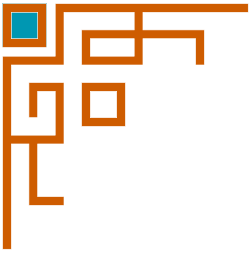

Short Rays

32394

Long Rays

15276

# JOURNAL CODED MESSAGE

Solution:

First, translate to English letters

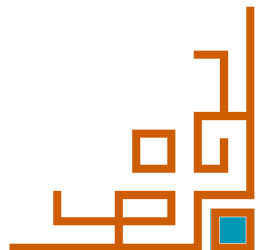

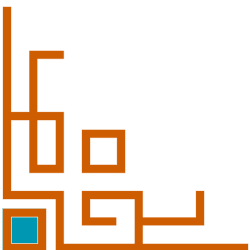

“zmiznz mr pllo”

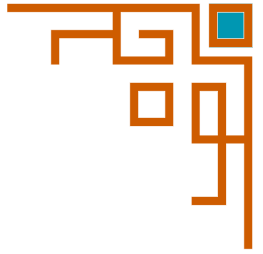

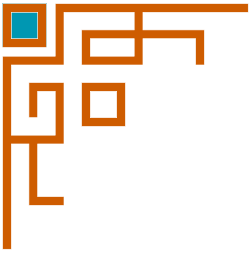

Second, use a backwards or reverse alphabet to change letters.

“anrama ni kool”

In the final step, read backward to get the following message:

“Look in Amarna”

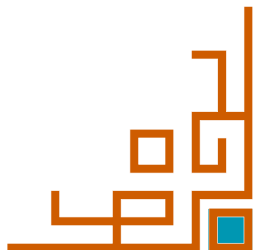

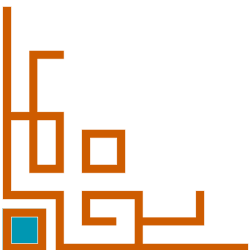

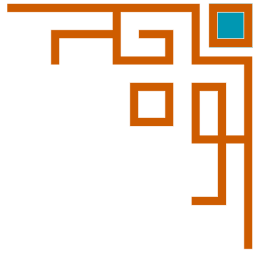

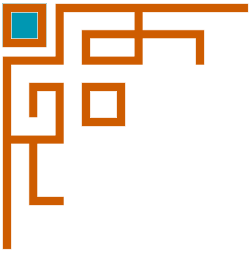

# AMELIA

Solution:

Password: amarna

Second Password: 3239415276

# JOURNAL - WHO IS...?

Solution:

Password: danielbelmont
