# Finished on the Upper Deck?

Solution:

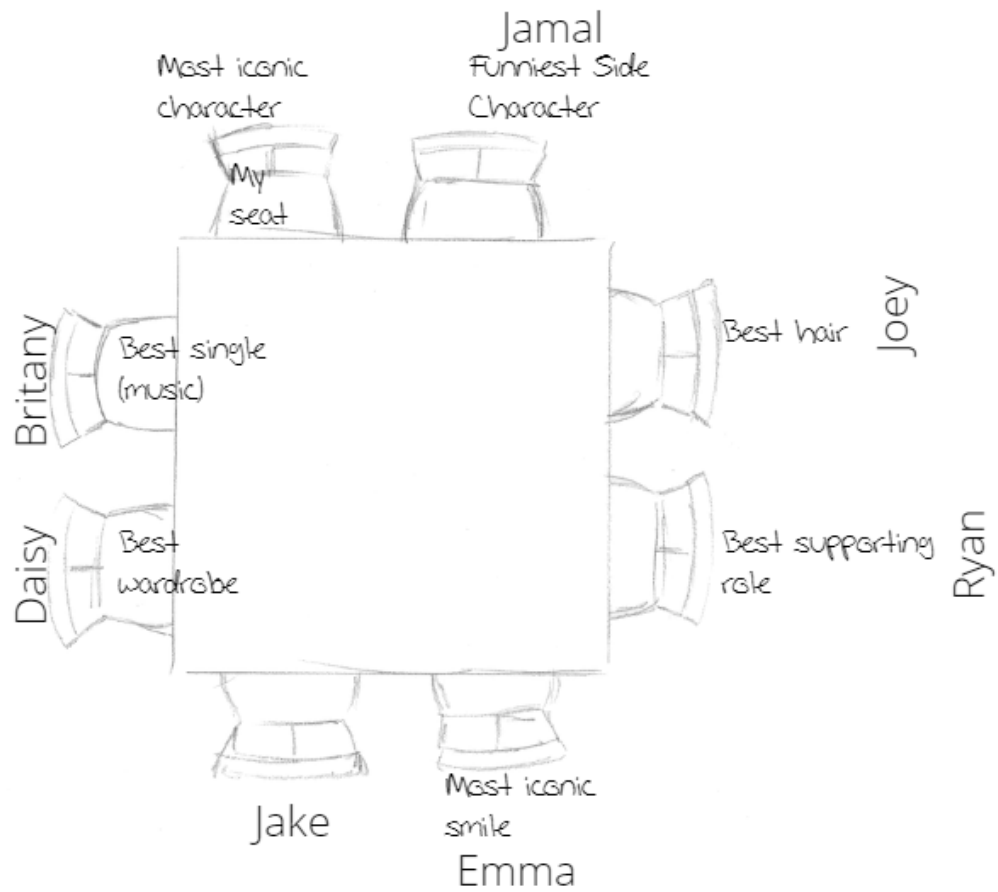

Suspects eliminated Britany, Jamal, and Ryan.

You should be able to eliminate Britany with the putt-putt golf scorecard and the chat log. Since she is Tinkerbell, this places her at putt-putt during the time of the murder. Jamal is eliminated after you solve the Maze of the Hidden Temple and see his signature. Ryan is eliminated after solving the word search and helping DJ Millennium, which gains you access to the crew-only area. Once there, Carlos tells you Ryan bought drugs and attended an event at the time of the murder.

# Mid-deck

Solution:

You will eliminate Emma and Joey as suspects.

Figuring out who got what trophy and unlocking Elizabeth's information will let you eliminate Joey since he was with Elizabeth during the murder.

Unlocking the security door and unlocking Sylvia's information will give you the details needed to eliminate Emma. She was the one that stole the alcohol during the time of the murder.
