

Hints: Cape Anna - Micro Mystery:

Who is the Informant?

Bird Snack Puzzle

When you look at the list of snacks the bird gets, you will notice it always gets one snack from the top row, two from the middle, and one from the bottom. The snacks the bird gets each day form a pattern.

It will help if you write out the numbers for each day and look at the list you create.

Look at the list going down, and you will see a pattern in each column.

2, 4, 6, 8

3, 5, 6, 8

3, 4, 5, 9

1, 4, 6, 9

1, 5, 6, 7

?, ?, ?, ?

Queen Bees Puzzle

1. Read all of the statements CJ makes about the queen bees before you try to figure out who is who.
2. The statement about Esther is the key statement.
3. Esther is the bee closest to the entrance. You should be able to figure out the rest now.

Barry Blue Cipher Puzzle

1. You will use the lyric sheet to the “Barry All the Way” song along with the coded message.
2. Pay attention to where the Barry sticker arms are pointing.
3. You will equate the letters to one another, so for the sticker that is pointing at “R” and “O,” you can replace every “O” in the coded message with “R” and vice versa. Do this for all of the letters Barry is pointing at to reveal the message. The letters that don’t change are already correct, so don’t change them.

Where is the Barry Blue Costume?

1. You will need to have solved the Barry Blue cipher before attempting this. The brochure map from Murder at Cape Anna will also be needed to solve this.
2. Once you decode the message, you will get a series of places the costume is not. You can then use the map of Cape Anna to determine where the costume could be.
3. If you take into account all of the items mentioned on the note, you are left with only one option.

Who is the Informant

1. You will need to have solved all other puzzles in the micro mystery before doing this.
2. You will be able to eliminate three of the four suspects, leaving you with the informant.
