# SEANCE TABLE

answer: 4231576

Houdini/Chariot (corresponds to vengeance)

Crowley/Emperor (corresponds to structure)

Tess/High Priestess (corresponds to impatience)

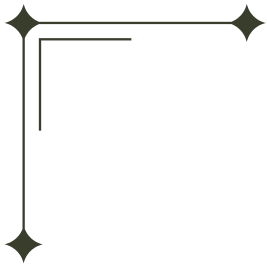

Carney/Hermit (corresponds to caution)

Burke/Fool (corresponds to free spirit)

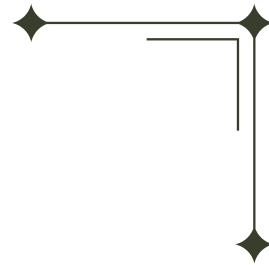

Desmond/Empress (corresponds to accomplishment)

Delaney/Hierophant (corresponds to forgiveness)

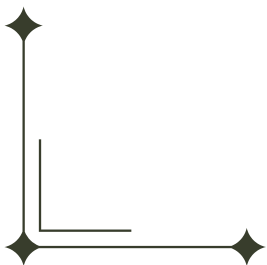

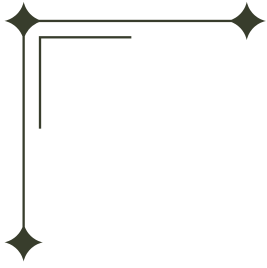

# THORNE CROWLEY

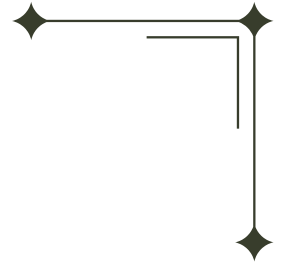

answer: ceceliastroke

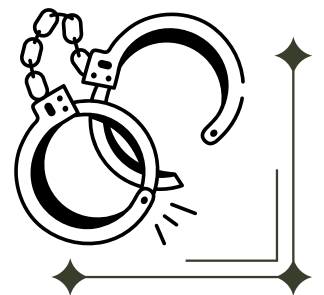

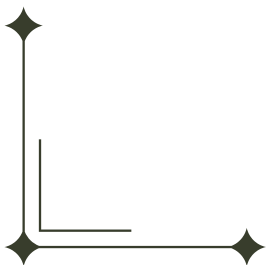

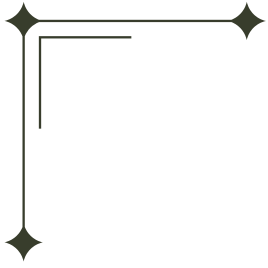

# KEYHOLE CARD

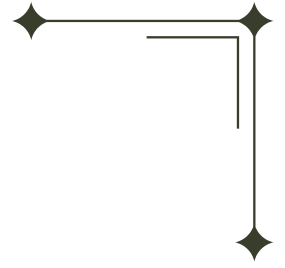

answer: look under table

Password: undertable

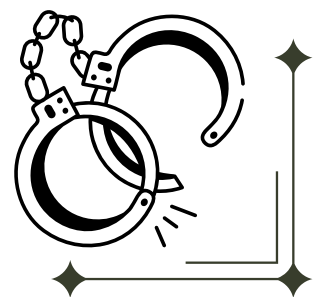

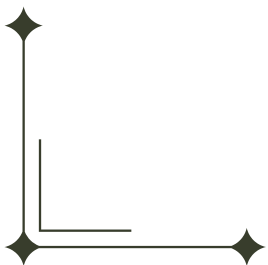

# HANDCUFFS/SAFE

anwer: 93806

# WHERE DO YOU SEARCH?/AUTOMATIC DRAWINGS SHEET

answer: search the doyle bust

Password: doylebust

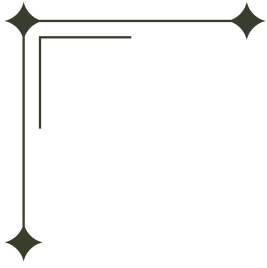

# MAGICIAN LETTER 2/WHEN YOU THINK YOU KNOW WHO I AM...

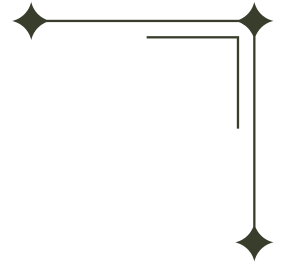

answer 1: hierophant

answer 2: spiritcabinet

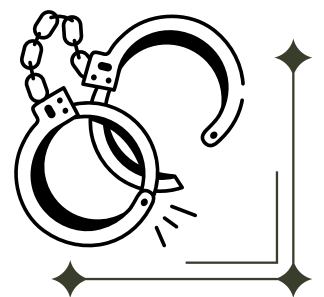

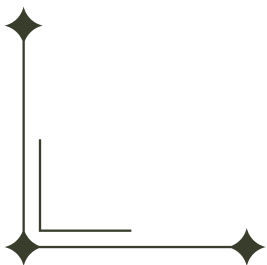

# WHERE IS THE KEY?

answer: oldbible

# GRANDFATHER CLOCK

answer: 979

The goal of the grandfather clock puzzle is to first match the astrological symbols with their correct numbers on the clock. The rules for how they should be placed are located on the Magician's 3<sup>rd</sup> letter and in the Where is the Key unlock.

You are told that Capricorn is 8. You can place Leo, Aquarius, Taurus, and Aries by the facts listed in the unlock.

\*Aries' number is twice that of Taurus.

\*The value of Aquarius is three times the value of Leo.

\*Leo is half the value of Taurus.

By using these rules, we can match Aries with 12, Taurus with 6, Aquarius with 9, and Leo with 3. This satisfies all of those conditions.

Next, we know that \*Scorpio is between Pisces and Aquarius. Because we've put Aquarius at 9, that means that Scorpio is 10 and Pisces is 11. We know that \*Virgo is directly across from Pisces, which makes Virgo 5. \*Gemini is between Aries and Libra, which means that Gemini has to be 1 and Libra has to be 2. That leaves 4 and 7 to place. We are told that Sagittarius is an even number, which makes it 4, and that leaves 7 for Cancer.

That will make the numbers as follows:

- 1-Gemini
- 2-Libra
- 3-Leo
- 4-Sagittarius
- 5-Virgo
- 6-Taurus
- 7-Cancer
- 8-Capricorn
- 9-Aquarius
- 10-Scorpio
- 11-Pisces
- 12-Aries

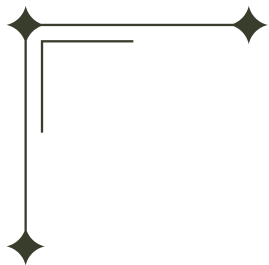

When you substitute the correct values for each symbol on the back, you end up with:

7103 (top row)

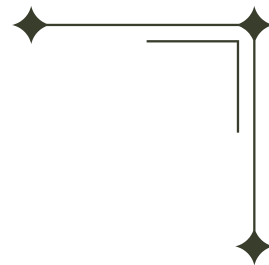

6124 (bottom row)

It asks you for the difference. 7103-6124 is 979.

# RIDDLE

answer: breath
