Handyman's Hardware Unlock

Password: 1622202

You get this by subtracting one from the first number (2856769) giving you 1, two from the second number giving you 6, three from the third number giving you 2, four from the fourth number giving you 2, five from the fifth number giving you 2, six from the sixth number giving you 0, and seven from the seventh number which is 2.

Junkyard Employee Unlock

password: jerry

You get this by analyzing the data on the spreadsheet to get information.

Car Tag / Contact Phil

password: mike26

Jerry mentions that the license plate was related to sports and had four letters and two numbers. The baseball poster found in the car is signed by one of the players. It's reasonable to assume that the John Doe had a custom license plate of his favorite player's name and number.

Socket Set/Message Found in Apartment

“The password is unseen”

Use the socket wrench set to translate the fractions into letters. You will have to determine which of the two letter options to use so you get a coherent message.

The Cyclist Store

Password: 9453

Use the order you get from the Hardware store employee along with the bicycle lock.
Match up the words Cold, Sweet, Lucky, and Energy to the symbols and use the corresponding numbers.

The Cake Shop Unlock

password: 6726

You get this by matching the shapes from the canister found in The Cyclist Shop unlock with the shapes on The Cake Shop poster. Then count the number of indicated items in each photo. You will know what to count by reading the message on the poster under the heading “A Valley Falls Original.” Pops, candles, layers, and figures. Use the order of the shapes from the canister.

Address

Key St

You get this in The Cake Shop unlock by looking at the images and taking the first letter of the name of each item: Kite, Exclamation Point, Yoyo, Slinky/Spring, Train: KEY ST.

Purple Door

Password: keystunseen

You get this from completing all of the other puzzles in this section. Specifically, you get this from solving the puzzle inside the Cake Shop unlock and the puzzle found at the apartment in the Call Phil unlock.

Who does what?

Raymund - restaurants(drug manufacturing) and food delivery services(drug distributing)

James - security(theft) and consulting work(blackmailing)

Aspen - restaurants(drug manufacturing) and some health food stores(prescription drugs)

Dan - shipping(exporting and importing drug) and food delivery services(drug distributing)

Symon - entrepreneur(money laundering) and shipping(exporting and importing drug)

Huxley - Pawnshops(fencing) and security(theft)

May - consulting firm(blackmailing) and health food Stores(prescription drugs)

Caroline - candy shops(brothels) and restaurants(drug manufacturing)

Hannah - entrepreneur(money laundering) and fundraising(fraud)

Angela - candy shops(brothels) and fundraising(fraud)

How to connect everyone to their businesses.

1. The underlined information comes from the server, Michael Crawford.
2. The rest comes from talking with the different crime bosses.
3. May mentions that she does consulting and that Aspen and she share the same type of business, but not consulting, so that means Aspen has health food stores.
4. Huxley mentions that both he and James do security work.
5. Dan mentions that he and Symon both are in the shipping industry.
6. Angela mentions that she and Caroline both run sweet shops.
7. Aspen mentions that Hannah is an entrepreneur.

Animal Riddle

pig

"All that I am willing to say about *South* is this:

they have no paws, (so not dog, cat, rat, fox, or bear)

you won't find them in the ocean, (so not shark or jellyfish)

and they have neither scales nor feathers (so not snake or peacock)."

Animals- Who is what?

Shark - Caroline

Cat - Angela

Snake - Hannah

Rat - Aspen

Jellyfish - James

Peacock - Dan

Dog - Huxley

Bear - Raymund

Fox - May

Pig - Symon

How to connect everyone to an animal.

Caroline - James calls Caroline a shark.

Angela - Angela mentions that she is a bit catty.

Hannah - Caroline mentions that Hannah is a snake.

Aspen - Samantha mentions that the rat wants to make a partnership with the snake(Hannah). Aspen mentions wanting to talk with Hannah about a business partnership.

James - May mentions that James is spineless like a jellyfish.

Dan - Samantha mentions that the peacock is from out of town and disdains the others. This matches with what is on Dan's card as he is stated to be the only one with business ventures outside the city.

Huxley - Dan refers to Huxley as a dog

Raymund - Samantha mentions that the bear is known for being ruthless, which matches with what Raymund says about himself

May - Samantha mentions that the fox is having trouble with the rat(Aspen) and wants the jellyfish's (James) help. That matches with what May says about herself.

Symon - After you have paired up all of the animals, you will be left with only one. This means by process of elimination, Symon is the pig.

Bathroom Stall/North Warden

“He will be wearing a blue tie at the party”

You get this from the Xs and Os in the bathroom stall and the story Andrew's informant gives him. There are 10 lines of letters on the stall door and there are ten sentences in the story. The number of letters in each line are the number of words in each sentence. Use the words that match up with the Os and you will get the message above.

Who are the Inner Circle (Spoilers)

West Warden - Aspen

Because he is over 6 feet tall, dresses well, like sushi, and drinks cognac. You will need to figure out who is which animal and where everyone is sitting to figure out what food and drink everyone likes.

East Warden - Caroline

First, you will need to have figured out what businesses everyone runs. Then you can exclude everyone that is involved with the importing and exporting of drugs, money laundering, and blackmailing since the East Warden wants to add these businesses to their operations. Therefore they are not currently involved in these businesses, but they would talk to people at the party who are. Caroline talks with Symon(Who is involved with the importing/exporting of drugs and money laundering) and May (who is involved with blackmailing).

South Warden - Symon

Because the South Warden is the pig based on the riddle given, and Symon is the pig based on matching all of the crime bosses to their animals.

North Warden - James

Because he is the one wearing a blue tie, which is what the message from the bathroom said the North Warden would be wearing.

Agent Peters Unlock

Password: jlsecmar

Refer to the “Who are the Inner Circle” for details on how to figure out each of the four members.

Sensitive Intel

“I have been betrayed by my partner Steve”

You solve this puzzle after figuring out who the four Inner Circle members are and unlocking Agent Peters' QR code. Add up the 4 numbers in each square on the Sensitive Intel puzzle. Then match the numbered pieces of paper Peters gives you in his unlock and write the corresponding letter.

Who Killed Andrew?

Password: stevepeters

You get this from completing the “Sensitive Intel” puzzle. The first name comes from the puzzle and the last name comes from the character card.
