PUZZLE 4: Last Meals

Answer: STRATJKT

1. Samuel Price insisted on having no food that had the same letter appearing twice in a row in its name. The only food that meets that requirement is T (lemon-herb roasted chicken)
2. Harold Minton hated cabbage and anything green. Because we've already assigned Samuel Price to lemon-herb roasted chicken, the only food left on the list that matches this requirement is S (breakfast).
3. Janet Watkins is a vegan which gives her the vegetable curry (T).
4. Leonard Weiss refused to eat anything that required a fork and wanted something basic. Based on what we've previously assigned, that leaves either fish tacos or the cheeseburger. Since a cheeseburger is the more basic food of the two, let's choose it (K).
5. Andrea Holt wanted something with noodles. There are only two options (spaghetti and teriyaki salmon). We know that Marcus Bell was killed before Andrea Holt and we're told that teriyaki salmon was prepared closer to the beginning of the list than the end. Of the foods that are left that could be assigned to Bell, only fish tacos and teriyaki salmon are possible. Therefore, we can choose teriyaki salmon since we know it was prepared closer to the beginning of the list (R) which leaves spaghetti for Andrea (J).
6. Lillian Shore was allergic to fish and didn't want to eat with her hands. So we eliminate fish tacos and assign beef stir fry to her (A).
7. Evelyn Cross had no preference so she gets fish tacos (T) because that's all that's left.

By listing these letters in the order of the victims, you get STRATJKT (short for straitjacket).
