“HELLO, DETECTIVES!” - 4 ROWS OF NUMBERS

3. The item(s) you will need can be found in Episode 2.
4. You will need the canister of colored beads. Place the correct color on their corresponding numbers on the grid and see what is formed after all beads have been placed on the grid.

“HELLO, DETECTIVES! - DO YOU UNDERSTAND...”

1. This message connects with another item in this episode. Look for a matching phrase.
2. Look at the note that mentions “A suspect’s first name...” as the connecting item.
3. You are told “Sometimes it’s not just letters but also instructions.” How could someone’s first name be interpreted as instructions?
4. The name you need to use is “LISA” So, how could that be interpreted as instructions?
5. The name LISA is giving you the alphabet key to decode the encoded message. “L”-is-”A” Knowing this information, write out the rest of the alphabet key to help you decode the message.

“HELLO, DETECTIVES!” - CAN YOU TAKE...

1. The goal is to start at the torch, go to all bonfires, and make it to the cave without moving diagonally or backtracking. Once you have this correct, the path will provide a message for you. You have to move around creatures and can't move through them.
2. The first two moves are “T” and then “R”

“HELLO, DETECTIVES!” - HURRY UP SO...

1. The final word in the statement is a clue on what item in this episode is needed to solve the puzzle.
2. You will need the keychain.
3. Look at the letters in brackets on the note. Then, look at the words on the keychain. Find the two letters at the beginning and end of each bracket. Then, the letter you need is found between them. That's what is represented by (?).
