4. Website (Chalkboard)
5. 4 typed pieces of paper
6. Find Your Boo
7. Sketches with stains
8. Name of the killer and what the stars showed you
9. Ready to close the case?

.

WHAT DO THE VICTIMS HAVE IN COMMON?

1. You are needing to see what the victims have in common besides simply all being students at Valley Falls University (VFU).
2. Take a look at the class schedules and see what they have in common.

RAVIN' ROOSTER (JUKEBOX)

1. You will need the setlist to solve this.
2. Look in the journal for information obtained from Bianca the bartender.
3. In the phrase that Bianca gives you, there are six separate phrases that describe six different songs on the setlist. Identify these songs in the order that the phrases are given to you.
4. This will eliminate a suspect.

WEBSITE (CHALKBOARD)

1. The message on the chalkboard is scrambled. Unscramble each word to reveal the message.

4 TYPED PIECES OF PAPER

1. You will need something from the website to help with this.
2. Listen to the song on the website to help you put the song lyrics in the correct order.
3. Once you have done this, look at all the texts from Charnel in the journal for the next part on what to pull from the song lyrics now being in order.

FIND YOUR BOO

1. You will need to have figured out what the victims have in common and solved the chalkboard puzzle on the website.
2. Once you have the list of the 15 students in the class, use the information from the website (Number 1 - ..., Number 2 - ..., etc.) to identify the astrological sign for each student.
3. Once you have all this information matched up correctly, use the message from the chalkboard to eliminate multiple suspects and narrow down your suspect list even more.
4. Identify the astrological sign of the victims and work backwards to identify the astrological sign of the killer.
5. This will eliminate multiple suspects.

SKETCHES WITH STAINS

1. You will need information from the website under “What Could It Mean?”
2. Notice how the graphics on the website correspond to elements from each sketch. Match these up.
3. Rewrite the rows of letters based on how their matching graphics are oriented on the sketch sheet. Top Left, Top Right, Bottom Left, Bottom Right.
4. Notice that one of the graphics on the sketch sheet is covered by a stain. What could that mean?
5. The stain means that the letters correspond to the sketch it is covering should not be included in the solution. So, you will only use three out of the four rows of letters for the solution.
6. This will eliminate two suspects.

NAME OF THE KILLER AND WHAT THE STARS SHOWED YOU

1. You will need to have solved all the puzzles to narrow down to the name of the killer.
2. You will need to have solved the 4 typed pieces of paper (stars) to get what the stars showed you.

READY TO CLOSE THE CASE?

1. You will need to have figured out the name of the killer and what the stars showed you.
2. Once you unlock that information, look for two words that are underlined.
