10. Who is who?
11. Brief Case
12. Computer
13. Suitcase
14. Safe
15. What did you learn about the suspects?
16. Solution

# SUITS OF ARMOR AND WEAPONS

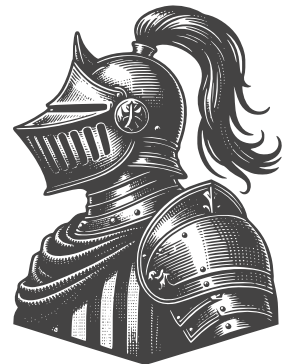

1. Use the notes from Barnaby found on the back of the detective notes with the image of the weapons to figure out which knight gets which weapon.
2. The first knight is holding the halberd.

# CAMERA SYSTEM

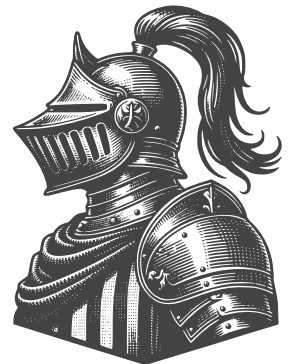

1. Use the Castle Key Terms from the Claymont Castle Facts pamphlet to know what battlements, arrow slits, and portcullis are.
2. Count how many squares on the images have the indicated terms.
3. From the images, you will get a single-digit number, another single-digit number, and a two-digit number.

# COAT OF ARMS/STONE WALL

1. You will need to have solved and unlocked the suits of armor and the security camera system before you can do this.
2. You are looking for the three lions on the shield that are identical. Look for things missing, like a toe or a piece of the tail.
3. There is one lion in each row that are identical to each other. Once you find them match them to the numbers stones from the tapestry card.

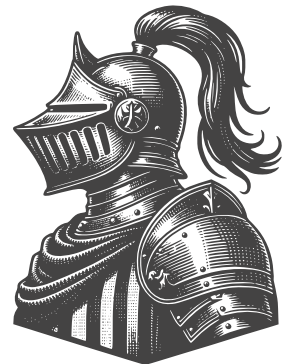

# PHONE

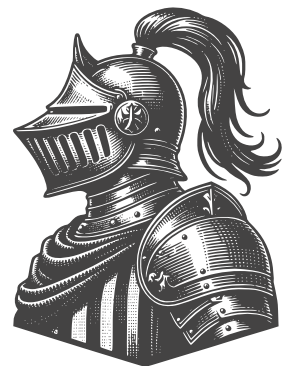

1. Read the note in the victim's journal about his new phone passcode.
2. You will need to read all of the clues before you can start placing numbers in the correct order.
3. The first digit is 5.

# STRANGE NOTE

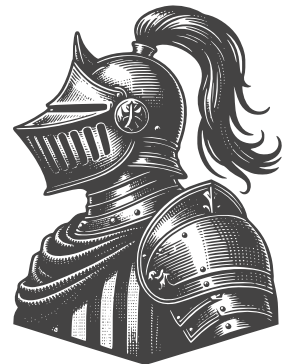

1. Use the blue piece of paper you have out loose with the blue paper in the journal.
2. Fill in the blanks on the loose blue paper. Starting at the top blanks, fill in from A to Z. Then for the bottom blanks, fill in from Z to A. Now use this to decode the message on the blue paper in the journal.
3. Note that when you start decoding the first line you go from the top row of letters to the bottom row of letters on the decoder. But when you start decoding the second line you do the opposite.

# STOLEN GOODS

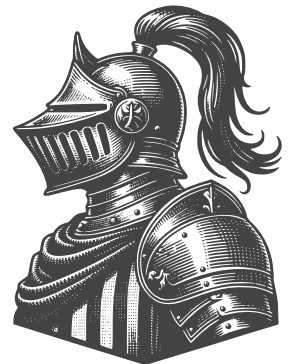

1. You need to solve the blue paper puzzle to be able to answer this question.
2. Use the last word from the decoded message.

# TEA

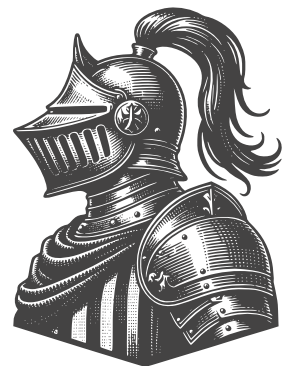

1. Use the Serving Tea grid with what Ethan tells you to figure out who ordered what tea with what sweetener.
2. Some can only be figured out by combining information from two or more of the clues Ethan gives you.
3. Miss Lowery got Earl Grey with Honey.

# DINNER SEATING

1. The victim's journal mentions that his business rival was sitting at the table beside the victim's table.
2. Daniel tells you the victim was at table 10 and table 7 was empty. So you are looking for the person who was at table 11.
3. By figuring out where others sat you will, by the process of elimination, be able to figure out who was at table 11.

# WHO IS WHO?

1. You need to have solved all of the puzzles in this section before you can answer these questions.

Ex-wife

Listen to what Ethan tells you after you help him with everyone's drink orders.

Business Rival

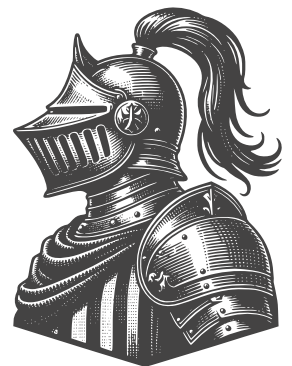

Figure out who was sitting at table 11 during dinner last night.

Ex-assistant

Unlock the phone, and read the name in the email.

Son of Former Partner

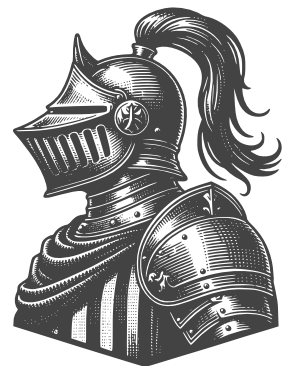

Find the stolen goods, and read the name on the pocket watch.

## BRIEF CASE

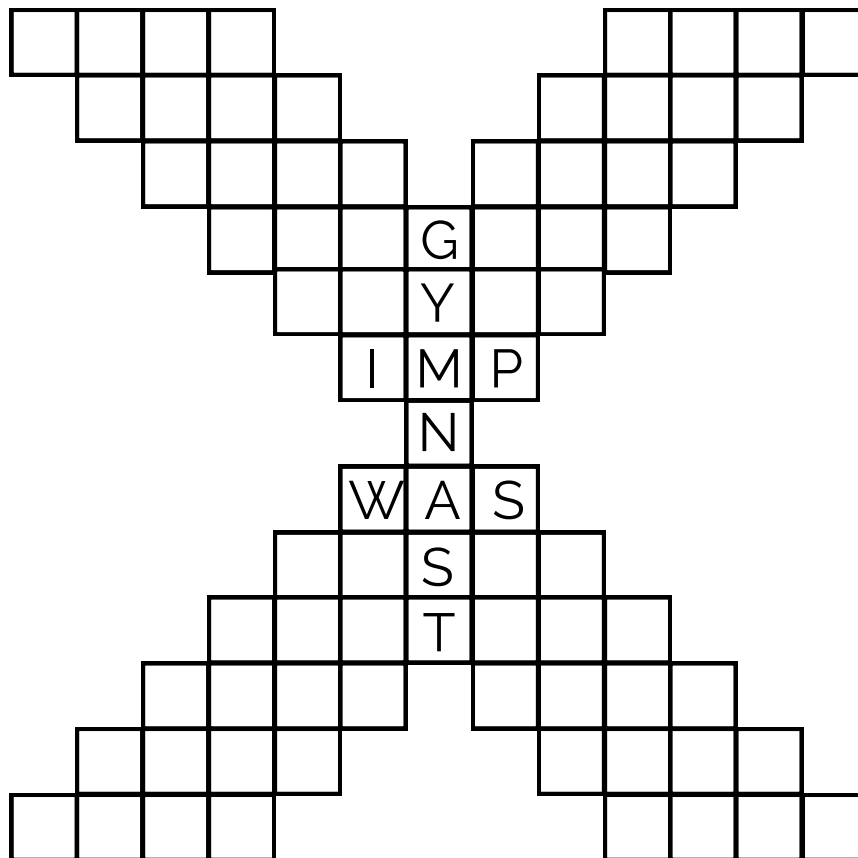

1. You need to read what Zakaria tells you about his favorite historical event.
2. He mentions it in his first interview.
3. To find the date of this event, look at the information under Claymont Trivia in the Claymont Castle Facts pamphlet.

# COMPUTER

1. Follow the directions. When you finish you will be left with two words. Use those two words to unlock the computer.
2. Look below for a hint to get started on filling out the X grid using your lists of words.

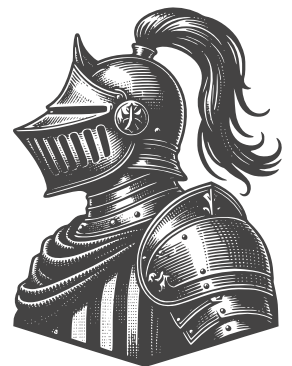

# SUITCASE

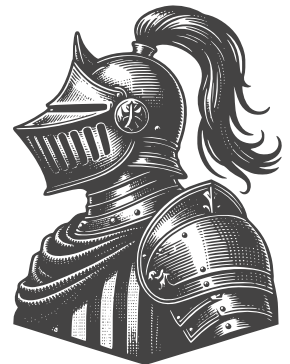

1. Complete the number pattern by looking at the example given (0, 1, 1, 2, 3, 5, 8). Then look at the blanks and the two known numbers (16 and 42).
2. This pattern is easy to figure out if you work backwards.
3. The number 42 would have been reached by adding 16 to a number.
4. So  $16 + ? = 42$ . Which means the number that is between 16 and 42 is 26.  
Keep going to get the rest of the numbers.

# SAFE

1. Hunt down the numbers you need using what Barnaby says to you when talking about the talk and his uncle.
2. There is an image of a lion on the Claymont Castle Facts.

# WHAT DID YOU LEARN ABOUT THE SUSPECTS?

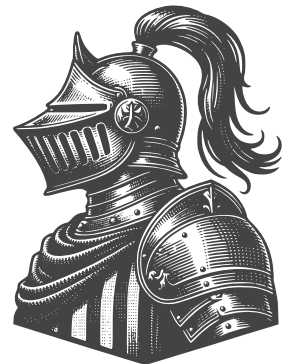

1. You need to have solved and unlocked the things found in the four suspects rooms before you can do this.
2. Read everything in the unlocks carefully.

Alanna Haynes - will have three things checked

Acacia Butler - will have three things checked

Trevon Parsons - will have two things checked

Zakaria Burch - will have three things checked

# SOLUTION

1. You will need to look at what you found in one of the suspect's rooms. There is a clue about which one you should look into.
2. It is mentioned that one of the things you were looking into would be easy to hide or plant in someone else's room.
3. Since only one of the things you were looking into was a physical item it should be easy to figure out which one it is talking about.
4. This is referring to the white gloves.
5. Knowing that, which suspect stands out? Look into that person more by reading what you found in their room.
6. You also need to look back at the history of Claymont Castle found on the Claymont Castle Facts. One of the family names matches a name you find in one of the suspect's rooms.
