THE MISSING KNIGHT

A fortnight ago the King's knights met to discuss the upcoming campaign against a rival kingdom. However, the knight who sat in the third seat has been missing ever since.
There were five seats at the table.

Sir John was sitting by only one of the knights in the group.
Sir George was directly left of Sir Peter.
Sir Malcolm was in between the missing knight and Sir John.
Sir Peter was directly left of Sir Francis.
Sir Francis sat at an end.

Who sat where and who is missing?
