SOLUTION

Password: trevonslater

In Trevon's suitcase, there was a funeral leaflet for Trevon's father. On it there is a mention of Trevon's mother, whose maiden name was Slater. This is also the family name for one of the knights that served Claymont Castle. This means Trevon has a connection to the castle. This along with his tech skills and him choosing to be there makes him the main suspect. His lack of white gloves could easily be explained by him planting them in someone else's room.
