

Walter Hudson Message

"I, Walter Hudson, of sound mind and body. (Coughing fit) Well, mostly sound body.

If you are seeing this message, it means I am no longer among the living, and you at the Will Street Detective Agency are in possession of this video. I have made a provision in my will to hire you upon my death, and no doubt, the retainer has been paid to you by my lawyer. You should know my death was neither natural nor an accident. (coughing fit) My family has many secrets. Originally, I had planned on revealing those secrets to the world, and that is what caused one of my relatives to murder me. I have left a letter explaining more about the situation and how to find my killer. I need you to help me expose the skeletons in each of their closets, detective, and drag those nasty secrets into the light.(coughing)."
