JAMES/SAFE

Solution:

64, 34, 39, 82

04, 14, 25, 37, 50, ??

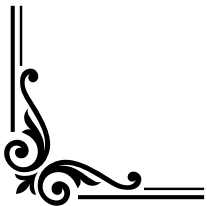

78, 89, 91, 12, 23, ??

08, 09, 11, 15, 23, ??

37, 46, 55, 64, 73, ??

Password:

64343982

BENJAMIN

Password:

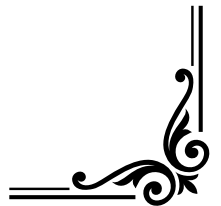

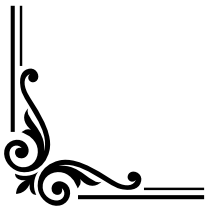

Mike = False

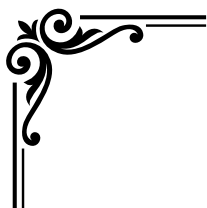

Time = True

Same = True

Alice = False

Jen = True

MIA/ FOOD

Password:

B, L, F

LUCAS

Passwords:

How many rooms are in Celia Marwood's house?

52

How many living relatives does Celia Marwood have?

4

At what age did Calie Marwood have to retire from adventuring?

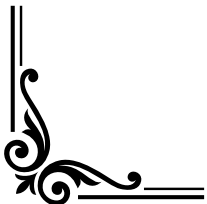

87

What is the Marwood family motto?

givegraciously

If all of the high value items sold for their estimated cost, how much money would that be?

44187000

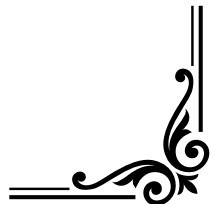

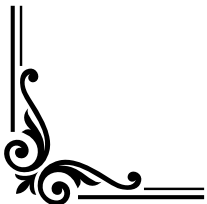

AMELIA/NUMBER CODE

Solution:

“ereht era uoy yhw nosaer emas eht si ti dna nosaer eno ylno rof ereht si ewerC
nomiS ekil skool ti ailema swen dab evah I”

“I have bad news Amelia it looks like Simon Crewe is there for only one reason and
it is the same reason why you are there”

SUSPECT ELIMINATION

Solution:

Julian Vale - James mentions in his unlock that a suspect was smoking Cuban cigars outside during the whole break. Based on the suspect details, you can determine this suspect to be Julian Vale. This means he never even entered the room the brooch was in.

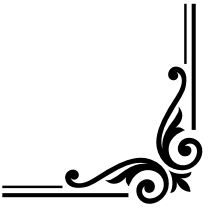

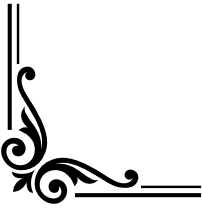

Simon Crewe = First - Mia mentions in her unlock that an older man was the first to go into the room. Since you know Julian didn't enter the room, this means Simon is the first one to enter the room. Amelia's note makes it clear that Simon is not interested in the brooch.

Harriet Dunn = Second - Mia mentions in her unlock that her boss was the second one to enter the room.

Ivy Mercer = Third - Edith mentions that Ivy was left a lot of money by Celia Marwood. So it doesn't make sense for her to steal the brooch. Benjamin's unlock reveals that Ivy was in the room right before Lucas.

Oliver Finch = Fifth - Benjamin's unlock reveals that Oliver was in the room right after Lucas. Lucas shares a video in his unlock that shows he was the 4th to enter the room and that the brooch had already been stolen by then, so it must have been one of the people who entered before him.

Beatrice Marwood = Sixth - Mia mentions in her unlock that Beatrice was the last/sixth to enter the room. Lucas shares a video in his unlock that shows he was the 4th to enter the room and that the brooch had already been stolen by then, so it must have been one of the people who entered before him.

SOLUTION

First Password:

Beatrice Marwood = Sixth

Ivy Mercer = Third

Simon Crewe = First

Julian Vale = Did not enter

Harriet Dunn = Second

Oliver Finch = Fifth

Second Password:

Who were you able to eliminate as a suspect based on all the evidence you have gathered?

Beatrice Marwood

Ivy Mercer

Simon Crewe

Julian Vale

Oliver Finch
