Barney's Pawn Shop/Pawn Shop

Owner Card

Solution: 5274p2584

The patterns to obtain the claim number are as follows:

First pattern: Sequential odd number (1, 3, 5, 7, 9, repeat).

Second pattern: Go in numerical order from 1-8 then repeat.

Third pattern: Sum of the first two digits (this is why some claim numbers are longer than others).

Fourth pattern: Even numbers, repeating after 8.

Letter: First letter of the item name.

The pattern to obtain the amount is to add each number to the one before it. Example:
