

The Ventriloquist Puzzle Solution

File

Case Files/List of Questions

Solution: 9684

From beginning Brief:

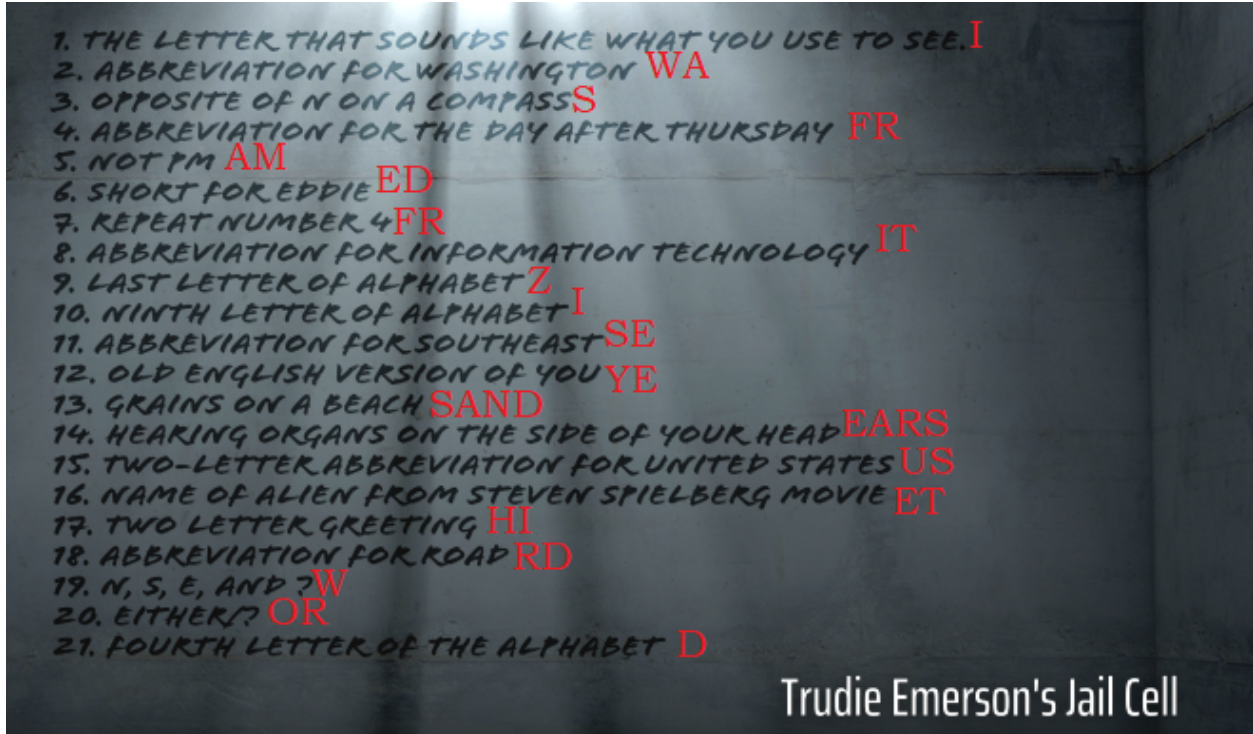

Joe from speaking. If he tries to speak, I will detonate the bomb. He isn't stupid and won't violate my rule. So how does he communicate you might wonder? You can ask him 'yes' and 'no' questions that he can answer by blinking. One blink is yes. Two blinks is no. In one of his pockets, I have provided a list of questions that need to be answered. The evidence room would be a good place to start. You are looking for a specific cold case file number that can be determined by Joe's answers to my questions. The questions correspond to file boxes. Move all the 'yes' files up to the top shelf. Leave the 'no' files down. The numbers on the boxes you end up with on the bottom shelf will give you the cold case number. Oh, and don't open the sealed folder Joe brought in just yet. I'll tell you when...or rather, Joe will tell you. Until then."

1. Is the person responsible for all of this watching us right now? One blink.
2. Are you afraid for your life? One blink.
