Who is the Killer

Eliminations:

Berry and Kenneth - Based on the receipt found in the IMAX cash register, Berry took Kenneth's payment for snacks while they were in the IMAX at the time of the killing.

Daniel and Tyrene - Both were together having an affair at the time of the killing. This is implied by Tyrene's journal and backed up by the blackmail photo found in Susan's filing cabinet.

Susan - Was taking photos of Daniel's affair with Tyrene at the time of the killing.

Craig - Based on the email you find between Craig and Patricia you find out that Craig snuck in to fix a display case so his boss would not find out he had broken it by accident. This is backed up by the time stamp on the photo that Craig took of the fixed display case.

Use the tag you found at the beginning to determine what weapon was used.
