Blueprint card

1. Read the interview with each suspect for clues on where other suspects were sitting.
2. Make sure that your orientation is correct. Example. If it mentions that someone is seated directly to the left of someone else, imagine that you are seated at a table and someone is seated directly to your left.

3. Start with the equation of 3 birds added together.
4. Once you have the values for each symbol, use the order from the "By Appointment Only" card.

Sycamore Lane

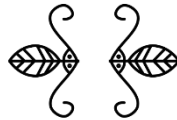

1. Unlock “By Appointment Only” card first.
2. Part 1 – Solve the colored dots and pins puzzle.
3. Dante Fratesi tells you a second piece to help solve the colored dots and pins puzzle. He tells you to use the word in white. Identify the white dots on one image and see what letters correspond to those locations on the similar image. See what word that you can form with these letters.
4. Part 2 – Given to you by Dante Fratesi

Sheet with symbols/letters/red skull in background

1. This is accessible only once you have been instructed to open the feather bag.
2. There are multiple symbols on this sheet that appear on another item that you get from the feather bag.
3. You should see this symbol or a version of it on the red/black/white voodoo priest card.

4. Notice where the red skulls are in relation to this symbol.
5. One of the red skulls should be in the middle of two of these symbols. But the second symbol is flipped in the opposite direction.

6. Look on the sheet with the red skull in the background. Take the letters that appear in between each group to form a statement.

Voodoo Mary “Into the Night” cd insert

1. This is accessible only once you have been instructed to open the feather bag.
2. Jean-Pierre mentioned going to a Voodoo Mary show and getting Mary’s autograph. Notice that Mary’s autograph is on the inside of the cd insert.
3. Jean-Pierre has a vision that mentions numbers.
4. Notice that the song list is numbered and the first letter of each song is in bold.

Candle puzzle

1. This is accessible only once you have been instructed to open the feather bag.
2. Unlock The Path of Madness
3. You are provided with candle locations. Notice that the diagram matches up to the modern day seating blueprint.
4. Read the personal account of Terry Hebert and pay attention to the underlined statement.
5. This statement is telling you that the candles are in their FINAL location AFTER a ritual had been performed.
6. Listen to the arrowhead audio from Jean-Pierre.
7. This audio gives you the instructions of the ritual START TO FINISH.
8. Jean-Pierre had more to the vision that says, “determine who corresponds to location of the orange candle before the ritual instructions were performed and be assured that they are innocent.”
9. So, you need to figure out who had the orange candle BEFORE the ritual was performed. You know the FINAL location of each candle AFTER the ritual was performed (The Path of Madness diagram). And you know the ritual instructions START TO FINISH from the arrowhead audio.
10. Take the candle diagram from The Path of Madness and work the ritual instructions backwards. You work them backwards because you are needing to do everything in reverse to get them back to where they were at the beginning. So, start with the last ritual instruction and work your way towards the first one. Also, make note that if an instruction was counter-clockwise that in order to go in reverse you will need to go clockwise.
11. Once you have done this, compare the candle locations with the modern day blueprint seating and see which suspect corresponds to the orange candle.

To bring back the life, you must give the life.
Two spots counter-clockwise all colors must go
Then one for the other, only swap black and yellow
With just one color straight across, the red must be changed
From orange, two spots counter-clockwise swap only that color with orange
One spot counter-clockwise all colors must go
To bring back the life, you must give the life.
Give the life of the one holding onto the black.
