# Safe

You will need to have solved the messages on the second napkin before you can complete this puzzle.

1. The message on the second napkin mentions that the safe password is a code that changes. The message also mentions that the code follows a pattern.
2. The numbers on the sticky note form a pattern.
3. Examine the pattern in the first digit of each sequence.
4. Examine the pattern in the second digit of each sequence.
5. Continue with each additional digit, determining the pattern.

010880

034575

050870

094565

110860

??????

??????-This is the number you are trying to determine.

Example:

First digit-If you examine the pattern, you will notice that the numbers are increasing as 10,880 goes up to 34,575, etc. So when you get to 1 for the number 110860 the next logical number in the chain is also 1.

Second digit-The numbers go from 1 to 3 to 5 to 9 and then back to 1. So the next digit in that sequence is 3 and so on.
