Buried Hand Riddle (from phone unlock)

1. The killer captions the photo of the buried hand with some words that appear elsewhere in the box.
2. Consult Margaret's communications in the automatic writing document to find out where to look for the link to these words. She mentions some of the interests she had and things she did out in the barn.
3. Use the numeric values given on the document associated with Margaret's interest to obtain what you have left when "take away health." This is a simple math problem that will yield a single-digit number.
4. You should be looking at the Palmistry Chiromancy document.
5. Add the numerical values of reason, passion, intuition and fortune then subtract health.
6. Locate the word that corresponds to that value and use it as the password to enter the barn.

3. Determine the most haunted house in the room.
4. Example: The kitchen is a 5, since E.V.P. is worth 2 and objects moving on their own is worth 3.
5. Take the number of that room and use it to consult the Witch's Sigil.
6. Take the letter inside each triangle whose number corresponds to the number of the most haunted room in the Montgomery house and use that to unlock a specific place on the farm.
7. The word you get will once again be a constellation name.
8. The S.T.A.L.K. team hints at which place in their notes about the Witch's Sigil.
